About Child and Family Consultants Inc

Child and Family Consultants Inc is a family centered rehabilitation and mental health facility. Our talented staff provides a variety of developmental, educational, and rehabilitative services for infants, children, adolescents, young adults, and families.

The professionals at CFC are committed to providing expert and nurturing care to children and families as they manage behavioral, developmental, and educational concerns.

Foremost is our belief in the family as the primary catalyst of change. Parents are the experts of their children. Establishing and supporting positive relationships in the family is the key for adaptation, change, and creating goals.

As a first step, Child and Family Consultants Inc will provide a comprehensive and accurate evaluation. The therapist and parents or family collaborate on an individual treatment plan designed to promote a child's strengths as well as develop adaptive behaviors which will improve a child's functioning at home, at school, and in the community.

Child and Family Consultants Inc are able to deal with a variety of rehabilitation and mental health needs. These include, but are not limited to learning, language and communication, physical disabilities, attention and behavioral issues affecting family dynamics, and a child's daily functioning.

Child and Family Consultants Inc offers individual, group, and consultative services in our family centered facility
